DCI WE

MEMORANDUM FOR THE DIRECTOR

1. Some time ago you attempted to have the Special Group (CI) as well as Special Group (5412) hold a meeting out here at the pickle factory, to include lunch and a visit to our exotic-equipment room. As you know, the latter includes the bulk of our sexy paramilitary developments as well as clandestine sabotage equipment developed by TSD.

2. I think we can well discontinue the exhibit room but would prefer that the Special Group principals see what we have before we do anything drastic.

3. Would you please consider renewing your invitation to the Group for luncheon, meeting, and a visit to the equipment-display room?
